PROFESSIONAL SUMMARY

Bachelor of Computer Science graduate with hands-on project experience in SQL, Python, and database-driven application development. Skilled in data cleaning, querying, and dashboarding with Power BI and Excel. Completed job-simulation programs in data analytics and GenAI-powered analytics. Looking to apply strong analytical and problem-solving skills in an entry-level Data Analyst or IT Analyst role.

TECHNICAL SKILLS

Languages: Python, SQL, Java, C, PHP

Data & BI Tools: MySQL, PostgreSQL, Pandas, NumPy, Microsoft Excel (Advanced), Power BI

Web & Version Control: HTML, CSS, JavaScript, Git/GitHub, Apache/WAMP

Core CS Concepts: DBMS, Operating Systems, OOP, Computer Networks

PROJECTS

E-Agri Management System | *PHP, MySQL, HTML, CSS*

- Built a full-stack web application to digitize agricultural record-keeping, replacing manual, paper-based processes for farm data.
- Designed a normalized MySQL schema and implemented CRUD operations in PHP, enabling reliable storage and retrieval of records across multiple modules.
- Prioritized usability and query efficiency, reducing the steps needed to search and update records.

Amazon Clone | *HTML, CSS, JavaScript, PHP, MySQL*

- Developed an e-commerce web application replicating core shopping workflows: product listings, cart, and user interactions.
- Integrated a PHP/MySQL backend with the frontend to support dynamic product display and persistent data storage.
- Applied full-stack development practices spanning frontend design, backend logic, and relational database management.

EDUCATION

Bachelor of Computer Science (BCS) 2023 – 2026

M.S.G College Malegaon, Savitribai Phule Pune University (SPPU)

Higher Secondary Certificate (12th) 2022

Score: 80.67%

Secondary School Certificate (10th) 2020

Score: 94.40%

CERTIFICATIONS & TRAINING

- Data Analytics Job Simulation
- GenAI-Powered Data Analytics Job Simulation
- Microsoft Excel: Beginner to Advanced

ADDITIONAL INFORMATION

Career Interest: Data Analytics, Business Intelligence, IT Support/Analysis

Availability: Open to entry-level, full-time opportunities, immediate joiner
